

Listening to Albert Enns with Extended Ministries share his heart at the Sunday School time certainly reinforces the fact that we are certainly a "blessed" church. Your generosity and faithfulness in giving have allowed us to be instrumental in helping many ministries proclaim the gospel. I believe that to these many ministries we are the "bright star" that continues to support and by so doing encourages them. To hear Albert say that in the last while they had lost the support of 7 churches certainly impacted me.

I'm also reminded of Lorna with "Context with Lorna" as she spoke to our church the last time saying that either we were the only church or that there was only one other church that supported her ministry and what an encouragement our church was for her.

So to those who gave, you are Special. May the Lord bless you for it.

Certainly every action has a consequence!

The church restructuring brought forward by our employees is no exception.

In the past we have met with our Missions committee as well as having input from those who chose to do so in establishing a direction for our Mission budget effective for 2018. This process needed time. Please be aware that we still have one good option available to us and that is prayer.

After March 21, I would be available to answer questions on how this would impact our Missions budget as it pertains to other charities.

Please continue to be faithful in your giving.
